FORM 2
MCH BUDGET DETAILS FOR FY 2015

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: AZ

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
Of the Federal Allocation (1 above), the amount earmarked for:

\$ 7,016,019

A.Preventive and primary care for children:

\$ 2,515,650 (35.86)%

B.Children with special health care needs:

\$ 2,232,487 (31.82)%

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 294,297 (4.19)%

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 982,000

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 7,980,789

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 7,422,018

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 0

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 12,056,390

\$ 15,402,807

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 23,400,826

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS:	\$ 0
b. SSDI:	\$ 91,045
c. CISS:	\$ 0
d. Abstinence Education:	\$ 1,216,238
e. Healthy Start:	\$ 0
f. EMSC:	\$ 130,000
g. WIC:	\$ 42,214,457
h. AIDS:	\$ 0
i. CDC:	\$ 0
j. Education:	\$ 0
k. Home Visiting:	\$ 12,158,152
l. Other:	

EMSC DEMO PROJ	\$ 199,869
FAMILY VIOLENCE	\$ 1,873,805
PREP	\$ 1,039,023
RAPE PREV ED	\$ 552,216
SEXUAL ASSAULT SVCS	\$ 306,522
STATE INJURY SURVEIL	\$ 180,621
SUDDEN UNEXP INFANT	\$ 56,000

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 60,017,948

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 83,418,774

FORM NOTES FOR FORM 6

None

FIELD LEVEL NOTES**1. Section Number:** Form6_Main

Field Name: SickleCellDisease_Presumptive

Row Name: SickleCellDisease

Column Name: Presumptive positive screens

Year: 2015

Field Note:

Sickle Cell Disease count includes Sickle Cell Anemia, C Disease, and Beta-Thalassemia

2. Section Number: Form6_Other Screening Types

Field Name: Other

Row Name: All Rows

Column Name: All Columns

Year: 2015

Field Note:

-Cystic Fibrosis totals include non-classical cases (4) and traditional CF

-HMG and 3MCC are analyzed together, thereby the data only reflects the presumptive positives and cases of both C5-OH disorders

-MCD, MMA, and PA are analyzed together, thereby the data only reflects the presumptive positives and cases of both C3 disorders

-LCHAD and TFP are analyzed together, thereby the data only reflects presumptive positives and cases of both FAO disorders

-Methylmalonic acidemia (Cbl A, B) counts include counts for: Methylmalonic acidemia Cbl A, B, and mutase deficiency.

-Congenital Adrenal Hyperplasia counts include counts for 21-Hydroxylase Deficient Congenital Adrenal Hyperplasia

-3-Hydroxy 3-Methyl Glutaric Aciduria counts include counts for Hydroxy-3-Methylglutaric Aciduria

3. Section Number: Form6_Screening Programs for Older Children and Women

Field Name: Other/Women

Row Name: All Rows

Column Name: All Columns

Year: 2015

Field Note:

In 2013, a new data collection tool was used by the Family Planning program. This tool allows services to be better separated by Title V paid services compared to non-Title V paid services. As a result, the number of reported Pap tests and Pregnancy tests are lower than previous years because only Title V covered services are reported.

FORM 7

**NUMBER OF INDIVIDUALS SERVED (UNDULICATED) UNDER TITLE V
(By Class of Individuals and Percent of Health Coverage)**

[Sec. 506(a)(2)(A)(i-ii)]

TOTAL	1,033,471					

FORM NOTES FOR FORM 7

None

FIELD LEVEL NOTES**1. Section Number:** Form7_Main**Field Name:** PregWomen_TS**Row Name:** Pregnant Women**Column Name:** Title V Total Served**Year:** 2015**Field Note:**

The number of services provided to pregnant women increased slightly from 2012. The number for our hotline decreased, while the number of services provided by one of our home visiting programs increased due to new data analysis. In 2012, numbers for that program reported unique prenatal clients instead of unique prenatal visits provided, which is the number reported in 2013.

All numbers are based on total unique services provided, not unique individuals served.

Many of Arizona's Title V funded programs do not collect information on insurance status because they are population-based or infrastructure programs.

2. Section Number: Form7_Main**Field Name:** Children_0_1_TS**Row Name:** Infants <1 year of age**Column Name:** Title V Total Served**Year:** 2015**Field Note:**

The number of unique services provided to infants decreased slightly from 2012.

All numbers are based on total unique services provided, not unique individuals served. The total births of occurrence from Form 6 represents individual infants, where the number here represents services provided.

Newborn screening data is included here and in the children 1 to 22 years old category.

Many of Arizona's Title V funded programs do not collect information on insurance status because they are population-based or infrastructure programs.

3. Section Number: Form7_Main**Field Name:** Children_1_22_TS**Row Name:** Children 1 to 22 years of age**Column Name:** Title V Total Served**Year:** 2015**Field Note:**

The total number of services provided to children 1 to 22 years old increased by over 62,000 from 2012. This is likely due to an increase in hearing screens and including additional data from Oral Health. In previous years, the only oral health program data included was for Fluoride Mouthrise. In 2013, we have added services provided by the Dental Screening and Referral Program, which also includes the Sealant and Fluoride Varnish Programs.

Newborn screening data is included here and in the infants < 1 year old category.

All numbers are based on total unique services provided, not unique individuals served.

Many of Arizona's Title V funded programs do not collect information on insurance status because they are population-based or infrastructure programs.

4. Section Number: Form7_Main**Field Name:** CSHCN_TS**Row Name:** Children with Special Health Care Needs**Column Name:** Title V Total Served**Year:** 2015**Field Note:**

The number of services provided to CSHCN by our Office of Children with Special Health Care Needs reported for 2013 is the same as in 2012. Due to personnel changes, we were unable to get an updated number for 2013.

All numbers are based on total unique services provided, not unique individuals served.

Many of Arizona's Title V funded programs do not collect information on insurance status because they are population-based or infrastructure programs.

5. Section Number: Form7_Main**Field Name:** AllOthers_TS**Row Name:** Others**Column Name:** Title V Total Served**Year:** 2015**Field Note:**

The "other" numbers reported are for Pap Tests and Pregnancy Tests. These numbers are much lower than in 2012 due to changes in data collection. In 2013, the data collection process was changed to more accurately capture the number of services provided that were funded by Title V. In previous years, data was reported as services provided, regardless of funding source.

All numbers are based on total unique services provided, not unique individuals served.

Many of Arizona's Title V funded programs do not collect information on insurance status because they are population-based or infrastructure programs.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2015
[Sec. 506(a)(1)]
STATE: AZ

1. State MCH Administration:
(max 2500 characters)

The Arizona Department of Health Services was established as the State Public Health Agency in 1973 under A.R.S Title 36 and designated as Arizona's Title V Agency. The Office for Children with Special Health Care Needs (OCSHCN) moved to the Bureau of Women's and Children's Health (BWCH) when the administration of the Children's Rehabilitative Services Program transferred to the Arizona's Medicaid Program, Arizona Health Care Cost Containment System (AHCCCS) on January 1, 2011. The BWCH including OCSHCN provides policies and standards development, comprehensive planning, community organizations development, training and technical assistance, and direct provision of screening, preventive services and service coordination. Services provided through or funded in part by the Title V program include, but are not limited to, High Risk Perinatal Services, Oral Health, Preconception Health, Injury Prevention, Immunization, Hearing Screening, Obesity Prevention, Breastfeeding and Pregnancy Hotline, Family Planning, Health Start, Family, Consumer and Youth Involvement.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ 7,016,019
3. Unobligated balance (Line 2, Form 2)	\$ 982,000
4. State Funds (Line 3, Form 2)	\$ 7,980,789
5. Local MCH Funds (Line 4, Form 2)	\$ 0
6. Other Funds (Line 5, Form 2)	\$ 7,422,018
7. Program Income (Line 6, Form 2)	\$ 0
8. Total Federal-State Partnership (Line 8, Form 2)	\$ 23,400,826

9. Most significant providers receiving MCH funds:

County Health Departments
Non profit Organizations
Community Health Centers
EMPOWER (nutrition and physical activity standards)

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	18,276
b. Infants < 1 year old	164,250
c. Children 1 to 22 years old	820,797
d. CSHCN	25,161
e. Others	4,987

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

OCSHCN supports the inclusion of CYSHN in health and wellness activities; funds the Ronald McDonald House of Phoenix and Tucson to enable families to stay near their hospitalized CSHCN; funds the Ryan House to provide respite and pediatric palliative care for CYSHCN and their families and provides family support, including information and referral and translation services. The High Risk Perinatal Program provides direct services. The maternal and neonatal transport component authorizes and funds transport of high risk pregnant women and infants to appropriate medical centers and the community nursing component provides in-home nursing consultation to enrolled families. The Hospital and Inpatient Physician Services component has contracts with physical groups to provide care to eligible infants in the Newborn Intensive Care Unit. The Reproductive Health/Family Planning Program contracts with county health departments and a county hospital system to provide education, counseling, referral, and reproductive health services to women of childbearing age. The Health Start Program provides inhome prenatal outreach, education and support services series through community health workers to at-risk pregnant and parenting women. Evidence-based home visiting programs are targeted to high risk communities through the Maternal, Infant, and Early Childhood Home Visiting Program. The Pregnancy & Breastfeeding Hotline helps pregnant women find a prenatal care provider willing to work out a payment plan while beginning services. The Office of Oral Health continues to support school-based sealant programs throughout the state. The sealant programs provide oral screenings, dental sealants and referrals to low-income and high-risk children. The OOH provides screening, fluoride varnish and referrals to young children in a high risk area of Phoenix. The County Health and Prevention Program provides car seats and education to low income families. Through school referrals, the Medical Services Project connects uninsured children with physicians willing to provide care for a nominal fee.

b. Population-Based Services:
(max 2500 characters)

The Bureau of Women's and Children's Health funds community-based projects that address state maternal and child health priority areas, such as injury prevention, obesity/overweight and oral health. The Sexual Violence Prevention and Education Program reaches over 15,000 Arizonans per year with primary prevention education. The program has been implementing innovative training on Bystander Intervention Skills (Bar Campaign) to include staff at alcohol serving establishments. There is an ongoing evaluation of that program at this time. The Office for Children with Special Health Care Needs and the Community Health Nurses of the High Risk Perinatal Program work with the Ear Foundation and the Newborn Screening Program to improve follow-up to infants who fail their hearing screening test. The Sensory Program supports the training for hearing screening and lends hearing screening equipment to schools and early child care facilities. The Bureau of Women's and Children's Health coordinates screening and education activities for Women's Health Week and works to ensure preconception education is included in every BWCH program that touch the lives of young women. The County Health and Prevention grants educate women, teens, and children on preconception health and/or injury prevention and encourage coalition building, change in organizational practices and policy development at the local level. The Pregnancy & Breastfeeding Hotline and Children's Information Center provides the public with a variety of information and referrals for health and human services. The Office of Oral Health has developed and implemented train-the-trainer curriculum on oral health in early childhood for Head Start/Early Head Start, childcare center staff and parents. The Office of Oral Health has implemented a fluoride varnish program which provides fluoride varnish and oral health education services to high risk children age birth to 5 through Intergovernmental Agreements with a County Health Department.

c. Infrastructure Building Services:
(max 2500 characters)

OCSHCN provides technical assistance on navigating the systems of care and training to families, young adults, medical professionals, health plans, educators, community partners and family support organizations on how to integrate and implement best practices for CYSHCN, maintains an e-learning system to facilitate training, and supports the development of family, consumer and youth leadership to participate in decision-making. Injury prevention: The Bureau of Women's & Children's Health leads the Department's injury prevention efforts through management of the ADHS injury Prevention Advisory Council and the ADHS injury Prevention Internal Workgroup. The Injury Prevention program trains people to become certified by the

National Highway Safety Transportation Administration on car seat instillation. The Emergency Management Services for Children Program worked with stakeholders to develop a voluntary pediatric designation system that identifies the readiness of hospitals and their staffs to provide optimal pediatric emergency and critical care. ADHS continues to implement the Empower Program which promotes standards on nutrition, physical activity and tobacco prevention to create a healthy environment for children in child care settings. The BWCH lead the completion of the first statewide preconception health plan. Staff and partners are working on implementation of strategies that will enhance the infrastructure for preconception health. The BWCH continues to partner with the March of Dimes and the Arizona Perinatal Trust to maintain Arizona's success in reducing prematurity. Working with partners, BWCH has initiated the development of a statewide plan to improve birth outcomes. BWCH continues to support Arizona's regionalized system of perinatal care through providing consultation to the Arizona Perinatal Trust and ensuring BWCH contracts with hospitals and emergency transport companies adhere to a high standard of care. BWCH and CSHCN continue to partner in ADHS' Health in Arizona Policy Initiative and provide funding for county health departments contracts designed to impact policy, system, and environmental change at the community, organizational, and individual level with a focus on inclusion of CYSHCN. The Office of Oral Health supports the development and activities of five regional oral health coalitions. The Office of Oral Health supports communities in the implementation and continuation of community water fluoridation.

12. The primary Title V Program contact person:

Name Mary Ellen Cunningham
 Title Chief, Bureau of Women's and Children's Health
 Address 150 N 18th Ave, Suite 320
 City Phoenix
 State Arizona
 Zip 85007
 Phone 602-364-1419
 Fax 602-364-1494

Field Name: PM02

Row Name:

Column Name:

Year: 2013

Field Note:

For 2011-2015, indicator data comes from the National Survey of Children with Special Health Care Needs (CSHCN), conducted by the U.S. Health Resources and Services Administration and the U.S. Centers for Disease Control and Prevention in 2009-2010. This survey was first conducted in 2001. The same questions were used to generate this indicator for both the 2001 and the 2005-06 CSHCN survey. However, in 2009-2010 there were wording changes and additions to the questions used to generate this indicator. The data for 2009-2010 are NOT comparable to earlier versions of the survey.

All estimates from the National Survey of CSHCN are subject to sampling variability, as well as survey design flaws, respondent classification and reporting errors, and data processing mistakes.

2. Section Number: Form11_Performance Measure #2

Field Name: PM02

Field Level Notes**1. Section Number:** Form11_Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2013

Field Note:

The confidence interval is + or - 7.1%.

Estimates for 2013 are not recommended for comparison to years prior to 2009 because of the changes made in the way the Hib vaccine is now measured and the vaccine shortage that affected a large percent of children that were included in the 2009 and 2010 samples.

2. Section Number: Form11_Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2012

Field Note:

The confidence interval is + or - 8.6%.

Estimates for 2012 are not recommended for comparison to years prior to 2009 because of the changes made in the way the Hib vaccine is now measured and the vaccine shortage that affected a large percent of children that were included in the 2009 and 2010 samples.

3. Section Number: Form11_Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2011

Field Note:

The confidence interval is + or - 5.8%.

Estimates for 2010 are not recommended for comparison to years prior to 2009 because of the changes made in the way the Hib vaccine is now measured and the vaccine shortage that affected a large percent of children that were included in the 2009 and 2010 samples. The estimates are not directly comparable since they do not consider the brand type where some children may be counted as up to date with 3 doses but may require 4 doses to be up to date.

PERFORMANCE MEASURE # 08

The rate of birth (per 1,000) for teenagers aged 15 through 17 years.

Annual Objective and Performance Data

	2009	2010	2011	2012	2013
Annual Performance Objective	32	23.5	23	18	17.5
Annual Indicator	25.3	22.1	18.4	18.5	15.0
Numerator	3,501	2,910	2,447	2,430	1,985
Denominator	138,280	131,854	132,814	131,429	132,356
Data Source	AZ Birth Certificates	AZ Birth Certificates	AZ Birth Certificates	AZ Birth Certificates	AZ Birth Certificates

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is
 fewer than 5 and therefore a 3-year moving average cannot
 be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes**1. Section Number:** Form11_Performance Measure #9**Field Name:** PM09**Row Name:****Column Name:****Year:** 2013**Field Note:**

The Healthy Smiles Healthy Bodies survey was conducted for a random sample of 3rd Grade students in 2009. It is important to note that some differential misclassification bias may have occurred during the visual examination for sealants. The ADHS Office of Oral Health received some reports of oral health examiners having difficulty telling the difference between a sealant and resins on molars. This threat to the validity of the estimate will be corrected prior to the next survey in 2015.

The most recent results are from the 2009/2010 survey and are therefore unchanged since 2009.

2. Section Number: Form11_Performance Measure #9**Field Name:** PM09**Row Name:****Column Name:****Year:** 2012**Field Note:**

Field Level Notes

1. Section Number: Form11_State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2013

Field Note:

The 2013 CDC YRBS wording of this question has changed compared to the 2011 survey. The CDC YRBS does not contain this data.

Data was obtained from the Arizona Department of Education (www.azed.gov/prevention-programs/resources/data/yrebs). The state added question was "During the past 12 months, did your boyfriend or girlfriend ever hit, slap, or physically hurt you on purpose?"

2. Section Number: Form11_State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2012

Field Note:

The estimate represents the percent of high school students that reported being hit, slapped, or physically hurt on purpose by their boyfriend or girlfriend (CI: 9.7-13.3%). The Survey conducted biennially, therefore reporting 2011 estimates.

3. Section Number: Form11_State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2011

Field Note:

The estimate represents the percent of high school students that reported being hit, slapped, or physically hurt on purpose by their boyfriend or girlfriend (CI: 9.7-13.3%)

STATE PERFORMANCE MEASURE # 2 - REPORTING YEAR

The percent of high school students who are overweight or obese.

Field Level Notes**1. Section Number:** Form11_State Performance Measure #2

Field Name: SM2

Row Name:

Column Name:

Year: 2013

Field Note:

A student was obese if ≥ 95 th percentile and overweight if ≥ 85 th percentile but < 95 th percentile. In Arizona, 10.7% were obese and 12.7% were overweight.

The HP 2020 Goal for adolescent obesity is 16.1%.

2. Section Number: Form11_State Performance Measure #2

Field Name: SM2

Row Name:

Column Name:

Year: 2012

Field Note:

The HP 2020 Goal for adolescent obesity is 16.1%. The Survey conducted biennially, therefore reporting 2011 estimates.

3. Section Number: Form11_State Performance Measure #2

Field Name: SM2

Row Name:

Column Name:

Year: 2011

Field Note:

Arizona overweight=13.9% and obese=10.9%. U.S. overweight=15.2% and obese=13.0%. YRBS asks high school students to report height, weight, age and gender. Overweight is students who were ≥ 85 th percentile but < 95 th percentile for body mass index, by age and sex, based on reference data. Students who were ≥ 95 th percentile are obese. The HP 2020 Goal for adolescent obesity is 16.1%

STATE PERFORMANCE MEASURE # 3 - REPORTING YEAR

The percent of preventable fetal and infant deaths out of all fetal and infant deaths.

<u>Annual Objective and Performance Data</u>

1. **Section Number:** Form11_State Performance Measure #3

Field Name: SM3

Row Name:

Column Name:

Year: 2013

Field Note:

Updated: 09/12/14

The decrease in the percent of preventable fetal and infant deaths may be partially explained by the decrease in infant deaths in 2013.

2. **Section Number:** Form11_State Performance Measure #3

Field Name: SM3

Row Name:

Column Name:

Year: 2012

Field Note:

The 2010 birth cohort was used in this analysis.

3. **Section Number:** Form11_State Performance Measure #3

Field Name: SM3

Row Name:

Column Name:

Year: 2011

Field Note:

The 2009 birth cohort was used in this analysis. This year AZ changed to 2003 version of death certificates that included changes in race/ethnicity categorization. These changes may have effected group used as reference. Further analysis is needed to see why the estimate is much lower than other years.

STATE PERFORMANCE MEASURE # 4 - REPORTING YEAR

Emergency department visits for unintentional injuries per 100,000 children age 1-14.

<u>Annual Objective and Performance Data</u>					
	2009	2010	2011	2012	2013

Field Level Notes**1. Section Number:** Form11_State Performance Measure #7**Field Name:** SM7**Row Name:****Column Name:****Year:** 2013**Field Note:**

The 2012 numbers were updated on 06/20/14. An error was found in last year's data analysis, this has been corrected and the numbers updated.

Weighted frequencies have been reported for 2012 and 2013 to account for any sampling bias that could occur during the survey.

Frequent mental distress is defined as having 14 or more mentally unhealthy days as measured by the question: "Now thinking about your mental health, which includes stress, depression, and problems with emotions, for how many days during the past 30 days was your mental health not good?"

In 2011 New weighting methodology—raking, or iterative proportional fitting—replaced the post stratification weighting method that had been used with previous BRFSS data sets. Also, BRFSS incorporated cell phones into their sample. Therefore, estimates from the 2011 BRFSS and forward may not be comparable to estimates created in previous years.

2. Section Number: Form11_State Performance Measure #7**Field Name:** SM7**Row Name:****Column Name:****Year:** 2012**Field Note:**

Estimate is weighted. Frequent mental distress is defined as having 14 or more mentally unhealthy days as measured by the question: "Now thinking about your mental health, which includes stress, depression, and problems with emotions, for how many days during the past 30 days was your mental health not good?"

In 2011 New weighting methodology—raking, or iterative proportional fitting—replaced the post stratification weighting method that had been used with previous BRFSS data sets. Field Level Notes

1. Section Number: Form12_Outcome Measure 1

Field Name: OMD1

Row Name:

Column Name:

Year: 2013

Field Note:

The data shows 2013 Arizona infant deaths as below (5.3 per 1000 live births) the HP 2020 Goal of 6.0 infant deaths per 1,000 live births, as well as the annual performance objective of 5.7 infant deaths per 1,000 live births.

2. Section Number: Form12_Outcome Measure 1

Field Name: OMD1

Row Name:

Column Name:

Year: 2012

Field Note:

The data shows 2012 Arizona infant deaths is slightly below (5.8 per 1000 live births) the HP 2020 Goal of 6.0 infant deaths per 1,000 live births.

3. Section Number: Form12_Outcome Measure 1

Field Name: OMD1

Row Name:

Column Name:

Year: 2011

Field Note:

Final data for 2011 were not available by submission of the grant application. Provisional data shows that for 2011 Arizona infant deaths is slightly below (5.9 per 1000 live births) the HP 2020 Goal of 6.0 infant deaths per 1,000 live births.

OUTCOME MEASURE # 02

The ratio of the black infant mortality rate to the white infant mortality rate.

Annual Objective and Performance Data

	2009	2010	2011	2012	2013
Annual Performance Objective	1.8	1.8	1.8	1.8	1.8
Annual Indicator	3.6	2.8	1.6	2.8	2.9
Numerator	17.1	11.1	7.3	11.2	12.5

Field Level Notes**1. Section Number:** Form12_Outcome Measure 2

Field Name: OM02

Row Name:

Column Name:

Year: 2012

Field Note:

In 2012 the ratio of the black infant mortality rate increased from 1.6 to 2.8. The number reported in 2011 might be a fluctuation in rates, since the ratio of 2.8 in 2012 follows more closely the decline from previous years.

2. Section Number: Form12_Outcome Measure 2

Field Name: OM02

Row Name:

Column Name:

Year: 2011

Field Note:

Final ratio number updated in 2013.

In 2011, the ratio of the Black infant mortality rate decreased from 2.8 to 1.6. The IMR rate among blacks decreased from 11.1 per 1,000 live births in 2010 to 7.3 per 1,000 live births in 2011.

In 2011 AZ began using the 2003 Standard death certificates, thus allowing multiple choices to self reported race/ethnicity. This might partially explain the drop in the ratio in 2011.

OUTCOME MEASURE # 03

The neonatal mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2009	2010	2011	2012	2013

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: AZ FY: 2015

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. REDUCE THE RATE OF TEEN PREGNANCY AMONG YOUTH LESS THAN 19 YEARS OF AGE
2. IMPROVE THE PERCENTAGE OF CHILDREN AND FAMILIES WHO ARE AT A HEALTHY WEIGHT
3. IMPROVE THE HEALTH OF WOMEN PRIOR TO PREGNANCY
4. REDUCE THE RATE OF INJURIES, BOTH INTENTIONAL AND UNINTENTIONAL, AMONG ARIZONANS
5. IMPROVE ACCESS TO AND QUALITY OF PREVENTIVE HEALTH SERVICES FOR CHILDREN
6. IMPROVE THE ORAL HEALTH OF ARIZONANS
7. IMPROVE THE BEHAVIORAL HEALTH OF WOMEN AND CHILDREN
8. REDUCE UNMET NEED FOR HEARING SERVICES
9. PREPARE CYSHCN FOR TRANSITION TO ADULTHOOD
10. PROMOTE INCLUSION OF CSHCN IN ALL ASPECTS OF LIFE

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: AZ

SP() #

PERFORMANCE MEASURE:	The percent of high school students who report having experienced physical violence by a dating partner during the past 12 months.
STATUS:	Active
GOAL	To reduce the incidence of dating violence among teenagers (grades 9-12).
DEFINITION	<p>The Youth Risk Behavior Survey asks high school students, "During the past 12 months, did your boyfriend or girlfriend ever hit, slap, or physically hurt you on purpose? Total percent of 'yes' responses out of all responses are used to determine the proportion of students who experienced physical violence by a dating partner.</p> <p>Numerator: The weighted number of male and female high school students reporting having been hit, slapped, or physically hurt on purpose by a boyfriend or girlfriend.</p> <p>Denominator: The weighted number of high school students in the Youth Risk Behavior Survey.</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2020 OBJECTIVE	15-34 Reduce the rate of physical assault by current or former intimate partners
DATA SOURCES AND DATA ISSUES	The Youth Risk Behavior Survey contains the percentage of high school youth who report having been hit slapped, or physically hurt on purpose by a boyfriend or girlfriend during the past 12 months. The survey results are only available every two years. Due to low sample size, data is not available by gender for some groups at most risk (e.g. Black or African-American and American Indian).
SIGNIFICANCE	In Arizona, reported dating violence has increased significantly for high school students from 8.5 percent in 2003 to 12.2 percent in 2007. No significant difference has been found between genders, therefore, it is appropriate to include all high school students in this measure. The Arizona Department of Health Services supports programs that attempt to reduce intimate partner violence within high school populations. Preventing violence among teens is an important component of advancing the state priority of reducing injuries, intentional and unintentional, among all Arizonans.

SP() #

PERFORMANCE MEASURE:

The percent of high school students who are overweight or obese.

STATUS:

Active

GOAL

Reduce the percent of high school students who are overweight or obese.

DEFINITION

Youth Risk Behavior Survey calculates body mass index from students' self reports of heights and weights, and categorizes them using CDC criteria as normal, underweight, overweight, and obese.

Numerator:

The weighted number of students classified as either "overweight" or "obese" in the YRBS.

Denominator:

The weighted number of all students in the Youth Risk Behavior Survey.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

19-3 Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

Youth Risk Behavior Survey calculates body mass index from students' self reports of heights and weights, and categorizes them using CDC criteria as normal, underweight, overweight, and obese.

SIGNIFICANCE

The National Health and Nutrition Examination Survey found that there has been an increase in overweight 12-19 year-olds from 5% to 16% over the last 40 years. While maintaining a healthy weight is important for people of all ages, being overweight during childhood can carry life-long health consequences. The Surgeon General's Call to Action to Prevent and Decrease Overweight and Obesity states: "Risk factors for heart disease, such as high cholesterol and high blood pressure, occur with increased frequency in overweight children and adolescents compared to children with a healthy weight. Type 2 diabetes, previously considered an adult disease, has increased dramatically in children and adolescents. Overweight and obesity are closely linked to type 2 diabetes. Overweight adolescents have a 70% chance of becoming overweight or obese adults."

SP() #

PERFORMANCE MEASURE:

The percent of preventable fetal and infant deaths out of all fetal and infant deaths.

STATUS:

Active

GOAL

Reduce infant mortality by reducing the percent of preventable fetal and infant deaths.

DEFINITION

Using the CDC Perinatal Periods of Risk model, total excess fetal and infant deaths will be identified for one calendar year by comparing death rates of various subgroups to fetal and infant death rates of a reference group (White women age 20 and older with more than 12 years of education).

Numerator:

Total number of excess deaths in one calendar year as identified by the Periods of Risk analysis.

Denominator:

Total number of fetal and infant deaths.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

16-1

Reduce the fetal (fetal deaths at 20 or more weeks of gestation) to no more than 4.1 per 1,000 live births, and reduce the infant mortality rate to no more than 5.0 per 1,000 live births.

DATA SOURCES AND DATA ISSUES

Arizona infant and fetal death certificates for one calendar year are matched to birth certificate data using the CDC Perinatal Periods of Risk model. Deaths are classified into periods of risk by weight and gestational age at the time of death, and excess death rates will be calculated by race/ethnicity, age, and education level.

SIGNIFICANCE

Although infant mortality in Arizona has declined, disparities remain in the rates of death among various subgroups of the population. African American, American Indian, and Hispanic infants die at higher rates than White non-Hispanic infants, as do infants born to less educated women and teens. While not all infant mortality can be prevented, disparities suggest that interventions directed at excess mortality within high-risk populations provide an opportunity for further progress. Improving preconception health of women is expected to reduce preventable fetal and infant deaths.

SP() #

PERFORMANCE MEASURE:

Emergency department visits for unintentional injuries per 100,000 children age 1-14.

STATUS:

Active

GOAL

To reduce the rate of emergency department visits for unintentional injuries among children age 1-14.

DEFINITION

Unintentional injuries are defined by the CDC as, "Injury that is not inflicted by deliberate means (i.e., not on purpose). This category includes those injuries described as unintended or "accidental", regardless of whether the injury was inflicted by oneself or by another person. Also, includes injury where no indication of intent to harm was documented in the ED record."

Numerator:

The number of outpatient emergency department visits for non-fatal unintentional injuries and poisonings for children age 1-14.

Denominator:

The population of children age 1-14.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2020 OBJECTIVE

Injury/Violence Prevention Objective 9

Reduce emergency department visits caused by unintentional injuries to no more than 111 per 1,000 people.

DATA SOURCES AND DATA ISSUES

All acute-care hospitals in Arizona, with the exception of federal hospitals (military and Indian Health services), are required to submit emergency room utilization data to the Arizona Department of Health Services twice a year. The population of children age 1-14 is based on the Arizona Department of Economic Security population projections.

SIGNIFICANCE

Injuries, both intentional and unintentional, are among the leading causes of death among children of all ages in Arizona. Unintentional injuries, homicides, and suicides accounted for 40.1 percent of all deaths among children 1-14 and 79.1 percent of deaths among adolescents age 15-19 in 2008. In addition, there were 7,124 inpatient hospitalizations for non-fatal injuries and poisonings among children and adolescents in 2008.

SP() #

PERFORMANCE MEASURE:

STATUS:

GOAL

DEFINITION

The percent of women having a subsequent pregnancy during the inter-pregnancy interval of 18-59 months.

Active

To increase the percent of women conceiving during the inter-pregnancy interval of 18-59 months.

Interpregnancy interval is measured by the difference in months between last pregnancy end and estimated month of conception for current birth or spontaneous abortion.

Numerator:

The number of women in one calendar year delivering a live birth or spontaneous fetal death within the 18-59 month inter-pregnancy interval. Primiparous women are not included in the numerator.

Denominator:

The number of women delivering a live birth or spontaneous abortion during the calendar year. Primiparous women are not included in the denominator.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

9-2 Reduce the proportion of births occurring within 24 months of previous birth.

DATA SOURCES AND DATA ISSUES

Arizona birth certificate and fetal death certificate data contain the requisite fields in order to calculate the difference in months between last pregnancy end and estimated date of conception for current live birth or fetal death. Interpregnancy interval is calculated by month rather than weeks. Fetal death certificates do not include all women experiencing a spontaneous abortion during a calendar year.

SIGNIFICANCE

Birth spacing influences birth outcomes. The proposed Healthy People 2020 Goal is an inter-pregnancy interval of at least 18 months. However, there is increasing evidence that risk for low and very low birth weight, small for gestational age, and preterm birth also increases significantly at 60 or more months beyond last pregnancy. Birth spacing and preventing unplanned pregnancies are critical strategies for addressing the state priority of improving preconception health.

SP() #

PERFORMANCE MEASURE:

Percent of Medicaid enrollees age 1-14 who received at least one preventive dental service within the last year.

STATUS:

Active

GOAL

To increase the percent of high-risk children who receive preventive dental services each year.

DEFINITION

Preventative dental services are based on the dental codes specific to preventive services D1000-D1550. These services cover prophylaxis, topical fluoride applications, nutritional counseling, oral hygiene instructions and dental sealants.

Numerator:

From the Arizona Health Care Cost Containment System (AHCCCS) EPSDT Report, line 12B, "Total eligibles receiving preventive dental services," sum of columns "1-2," "3-5," "6-9," "10-14,"

Denominator:

Line 1, "Total individuals eligible for EPSDT," sum of columns "1-2," "3-5," "6-9," "10-14,"

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

21-12 Increase the proportion of low-income children and adolescents who received any preventive den

DATA SOURCES AND DATA ISSUES

AHCCCS produces an annual "Form HCFA-416: Annual EPSDT Participation Report for Funding Source: Title XIX" containing dental utilization data, including information on preventive dental services.

SIGNIFICANCE

U. S. Surgeon General David Satcher deemed dental disease the "silent epidemic," yet, it is preventable with early intervention and the promotion of evidence-based prevention efforts like dental sealants. In an effort to improve health and well being it is imperative that we target interventions at preventing dental disease, especially in high-risk children. Although children enrolled in Medicaid are fully covered for dental services, they often fail to receive preventive dental care. The performance measure serves as an indicator for two state priority measures; improving oral health and preventative health services for children.

SP() #

PERFORMANCE MEASURE:

Percent of women age 18 years and older who suffer from frequent mental distress.

STATUS:

Active

GOAL

To decrease the incidence of frequent mental distress among adult women.

DEFINITION

As defined by the CDC Health Related Quality of Life Measures, frequent mental distress is having 14 or more mentally unhealthy days in the past month.

Numerator:

The weighted number of women age 18 and over having 14 or more mentally unhealthy days in the past month.

Denominator:

The weighted number of women responding to question about the number of mentally unhealthy days in the past month.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

DATA SOURCES AND DATA ISSUES

Annually the Arizona Behavioral Risk Factor Surveillance System (BRFSS) includes the question necessary to calculate the indicator of frequent mental distress. Adequate sample size is often too low for annual stratification by race/ethnicity and other groups of interest.

SIGNIFICANCE

The life course model for maternal and child health recognizes that chronic mental distress has a weathering effect on the reproductive health of women. The link between mental health and short and long term physical health is well established. From 2004-2008 Arizona women 18 years and older were significantly more likely to suffer from frequent mental distress (10.9 percent +/- 1.0) than men (7.8 percent +/- 1.1).

SP() #

PERFORMANCE MEASURE:

Percent of newborns who fail their initial hearing screening who receive appropriate follow up services.

STATUS:

Active

GOAL

90% of newborns who fail their initial hearing screen will receive followup services through rescreening, diagnosis and treatment by the year 2013.

DEFINITION

The percent of newborns who fail their initial hearing screening who receive appropriate follow up services.

Numerator:

Number of infants who are followed up through diagnosis and treatment.

Denominator:

Number of newborns who fail their initial hearing screen and are identified as requiring follow up.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2020 OBJECTIVE

28-11

Increase the proportion of newborns who are screened for hearing loss by age 1 month, have audiologic evaluation by age 3 months, and are enrolled in appropriate intervention services by age 6 months.

DATA SOURCES AND DATA ISSUES

State-based Early Hearing Detection and Intervention (EHDI) Program Network, CDC, and Arizona Department of Health Service Newborn Hearing Screening Database, which is maintained at the state lab.

SIGNIFICANCE

Currently in Arizona more than 20% of those that do not pass the initial screen do not receive a second screen or diagnostic evaluation. These children are at significant risk for hearing loss. Undetected hearing loss results in children who will have significant speech and language delays as well as impact on their social and emotional development. It has been shown that these delays are often not resolved resulting in children who have significantly lower reading abilities and reduced opportunities as adults. Research has shown that those children who are identified early and enrolled in appropriate early intervention services have speech and language skills within the normal range.

Is the Data Provisional or Final?				Final	Final

Field Level Notes

1. **Section Number:** Form17_Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2013

Field Note:

The rate of children hospitalized for asthma per 10,000 children less than five years of age decreased significantly from 2012 to 2013 ($p < 0.0002$). The rate in 2012 was 1,031 and decreased by 25.9% to 756 in 2013.

Updated 09/12/14:

The decrease may be partially attributable to KidsCare II. KidsCare was frozen in 2011. KidsCare II was available from May 1, 2012 through December 31, 2013. Peak asthma admission season in Arizona is mid-August to late September, with another smaller peak in December; the KidsCare II expansion would have covered these peak time periods. The hope is that the expanded coverage lead kids to: 1) be on maintenance meds with better control; and/or 2) seek outpatient care, thus avoiding hospitalizations.

2. **Section Number:** Form17_Health Systems Capacity Indicator #01

Field Name: HSC01

Row Name:

Column Name:

Year: 2011

Field Note:

The rate for 2011 was significantly lower than the rate for 2010 ($p < 0.0001$). This is a 21.5% decrease in asthma rates in this age group.

HEALTH SYSTEMS CAPACITY #02

The percent Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial periodic screen.

Annual Indicator Data

	2009	2010	2011	2012	2013

Field Level Notes

1. Section Number: Form17_Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2013

Field Note:

KidsCare II became available starting May 1, 2012 through December 31, 2013 for a limited number of eligible children. Starting January 1, 2014 families with an income between 100-133 FPL were transitioned to Medicaid. Family/s with an income of more than 133% FPL were sent notice of their need to apply for coverage under the Federally Facilitated Marketplace. For families who needed to use the marketplace, KidsCare II was extended and expired on January 31, 2014 to provide time to transition. Regular KidsCare remains in effect with frozen enrollment.

Enrollment for KidsCare II was frozen in September 2012 and reopened in November 2012. Beginning May 6, 2013, AHCCCS increased the income limit to 200% FPL.

The percent of SCHIP enrollees whose age is less than one year during the reporting year who received at least one periodic screen in 2013 is similar to that from 2009, prior to KidsCare being frozen.

2. Section Number: Form17_Health Systems Capacity Indicator #03

Field Name: HSC03

Row Name:

Column Name:

Year: 2012

Field Note:

Enrollment in the KidsCare Program has been frozen since January 1, 2010 due to lack of funding for the program. Currently there is a KidsCare waiting list for eligible children.

A new children's coverage program called KidsCare II became available for a limited number of eligible children from May 1, 2012 through December 31, 2013. The KidsCare II program reached its funding capacity (25,000) the week of September 3, 2012 and was frozen until further space becomes available. Beginning on November 1, 2012, AHCCCS reopened enrollment in the KidsCare II program and eligibility requirements for KidsCare II remained the same. Additionally, children on the wait list will be enrolled into the program if they meet the eligibility requirements for KidsCare II.

3. Section Number: Form17_Health Systems Capacity Indicator #03

Field Name: HSC03

HEALTH SYSTEMS CAPACITY #08

The percent of State SSI beneficiaries less than 16 years old receiving rehabilitative services from the State Children with Special Health Care Needs (CSHCN) Program.

Annual Indicator Data

	2009	2010	2011	2012	2013
Annual Indicator	100.0	100.0	100.0	100.0	100.0
Numerator	17,327	17,886	18,194	18,475	18,397
Denominator	17,327	17,886	18,194	18,475	18,397

Check this box if you cannot report the numerator because

1. There are fewer than 5 events over the last year, and

2. The average number of events over the last 3 years is

fewer than 5 and therefore a 3-year moving average cannot

be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2013

Field Note:

All SSI beneficiaries less than 16 years old are automatically eligible for Arizona's Medicaid Program, which provides comprehensive rehabilitative services. Title Vs role is focused on assuring families are aware of and enroll in SSI. The Social Security Administration provides OCSHCN with the names and addresses of SSI applicants and OCSHCN mails information to families of every applicant under age 21 to ensure that they know what potential services are available. They are also given contact information for OCSHCN staff who is prepared to give guidance on eligibility requirements and application processes for other services.

2. **Section Number:** Form17_Health Systems Capacity Indicator #08

Field Name: HSC08

Row Name:

Column Name:

Year: 2012

FORM NOTES FOR FORM 18

None

FIELD LEVEL NOTES

1. **Section Number:** Form18_Indicator 05

Field Name: InfantDeath

Row Name: Infant deaths per 1,000 live births

Column Name:

Year: 2015

Field Note:

Data for 2013 was calculated differently than in previous years. This year, infant death certificates from 2013 were linked to their birth certificates, when possible. This allowed us to view the payor information for each infant's birth (this information is reported on the birth certificate by not on the death certificate). The data for the Medicaid/non-Medicaid columns are estimates as the linked dataset does not include ALL infant deaths in 2013. The infant deaths included are those that were linked to an Arizona birth certificate and the infants mother was an Arizona resident at the time of the birth.

The rate reported for the ALL column includes all 2013 infant deaths.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: AZ

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES		
Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	1	No
REGISTRIES AND SURVEYS		
Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	2	No
Survey of recent mothers at least every two years (like PRAMS)	1	No

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: AZ

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	No
Other: Arizona Youth Survey	3	No

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:

1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 21

None

FIELD LEVEL NOTES**1. Section Number:** Form21_Indicator 07A

Field Name: Race_Women35

Row Name: Women 35 or older

Column Name:

Year: 2015

Field Note:

In 2013, nine women who gave birth were missing age information and were not included in this table.

2. Section Number: Form21_Indicator 07B

Field Name: Ethnicity_Women35

Row Name: Women 35 or older

Column Name:

Year: 2015

Field Note:

In 2013, nine women who gave birth were missing age information and were not included in this table.

3. Section Number: Form21_Indicator 09A

Field Name: HSIRace_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2015

Field Note:

The percentage for Blacks/African Americans was suppressed because the confidence interval around the percentage was greater than or equal to 10 percentage points.

The 90% CI for the total percentage was 36.7-39.1.

Data source: Annie E. Casey Foundation Kids Count Data Center

<http://datacenter.kidscount.org/data/tables/107-children-in-single-parent-families-by-race?loc=4&loc=2#detailed/2/4/false/868,867,133,38,35/10,168,9,12,1,13,185/432,431>

4. Section Number: Form21_Indicator 09A

Field Name: HSIRace_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2015

Field Note:

For school year 2012-2013.

5. Section Number: Form21_Indicator 09B

Field Name: HSIEthnicity_SingleParentPercent

Row Name: Percent in household headed by single parent

Column Name:

Year: 2015

Field Note:

The percentage for Blacks/African Americans was suppressed because the confidence interval around the percentage was greater than or equal to 10 percentage points. Because of this, they were not included in the ethnicity breakdown.

Those who were identified as having two or more races were included in the "ethnicity not reported" column.

Data source: Annie E. Casey Foundation Kids Count Data Center

<http://datacenter.kidscount.org/data/tables/107-children-in-single-parent-families-by-race?loc=4&loc=2#detailed/2/4/false/868,867,133,38,35/10,168,9,12,1,13,185/432,431>

6. Section Number: Form21_Indicator 09B

Field Name: HSIEthnicity_DropOutPercent

Row Name: Percentage of high school drop-outs (grade 9 through 12)

Column Name:

Year: 2015

Field Note:

The individuals who identified as multiple races are included in the "ethnicity not reported" column.

For school year 2012-2013.

7. Section Number: Form21_Indicator 09A

Field Name: HSIRace_FosterCare

Row Name: Number living in foster home care

Column Name:

Year: 2015

Field Note:

Foster Care totals are for April 1, 2013 through September 30, 2013.

8. Section Number: Form21_Indicator 09B

Field Name: HSIEthnicity_FosterCare

Row Name: Number living in foster home care

Column Name:

Year: 2015

Field Note:

Foster Care totals are for April 1, 2013 through September 30, 2013.
